Jasmine de Guise is a lawyer specializing in civil litigation, with expertise in insurance, particularly in civil and professional liability. Her in-depth knowledge of insurance products enables her to provide sound legal advice on coverage issues, including the interpretation of property insurance policies, as well as civil and professional liability (errors and omissions). She has significant experience handling design and

manufacturing defect claims, representing sellers, distributors, and manufacturers across various industries.

In recent years, Jasmine has authored several articles and delivered lectures on current legal topics. She has also taught civil liability at the university level and is actively involved in mentoring young lawyers.

Jasmine regularly appears before Quebec courts and leverages her negotiation skills to explore alternative dispute resolutions, resulting in satisfactory settlements for her clients. She plays a central role in managing complex cases, contributing to strategy development, legal arguments, and negotiations. Clients consistently commend her efficiency in resolving difficult claims, as well as her keen judgment and pragmatism.
