- J.D., Queen's University, 2009
- B.Sc. (Hons.), Joint Degree, Biology and the History of Science and Technology, Combined, University of King's College & Dalhousie University, 2006
- Certificate, Construction Project Management, George Brown College (School of Continuing Education), 2019

Lori Goldberg practices Construction and Infrastructure Law, with a strong focus on procurement and contracting matters. Lori's pragmatic approach and direct sector experience, gained during her time as

General Counsel to a large construction company, provides her clients with practical advice, guidance, and solutions to resolve or mitigate any issues which may arise throughout the life of a project.

Lori represents various industry stakeholders in connection with negotiating and drafting various construction contracts and agreements, including procurement documents, joint venture agreements, development management agreements, construction contracts, EPCs, and professional services agreements. Lori is also an experienced construction and commercial litigator, and has represented clients in numerous mediation, arbitration, adjudication, and litigation matters.
