

Biographie

Manahil completed her law degree at the University of Saskatchewan, where she also earned a Bachelor of Science with high honours, majoring in Chemistry and minoring in Crime, Law and Justice Studies.

During her academic journey, she actively participated in several programs, including Pro Bono Students Canada, Islamic Relief Canada-Saskatchewan, the Peer Health Program, and the University of Saskatchewan Help Center. In addition to their volunteer work, Manahil held leadership positions within the University of Saskatchewan's Chemistry Student Society and the Women in Chemistry Society, where they advocated for the academic and social needs of students and promoted gender diversity in the sciences.

Throughout her academic and volunteer experiences, Manahil has received numerous awards and certificates, including the Inorganic Chemistry Book Prize, the Patricia Currie Award, and recognition on the Chemistry Student's Honors List.

In her free time, Manahil enjoys traveling with friends to explore new cultures and food. She also enjoys cooking different cultural dishes and trying new cuisines, often experimenting with flavors and recipes from around the world.
